

August 6, 2019

Dear Stakeholder,

Stirling Renewable Energy LP (SRELPL), an entity owned by Potentia Renewables Inc., Greengate Power Corporation and Paul First Nation, would like to thank you for your continued interest in the Stirling Wind Project (SWP). We are sending this letter to you to provide some updates on the SWP.

Upon further review, SRELPL has optimized the collection system for the SWP to reduce the project's environmental impact by avoiding some wetlands. SRELPL is proposing minor changes to the collection system shown in the July 2019 Newsletter Map. An updated Map has been attached to this letter for your review with the collection system changes highlighted.

If, after review of this letter and the attached Map, you have further questions, we are available at any time to answer your questions and provide more information. Please contact Dan Tocher at 1.403.607.1308 or email him at info@stirlingwind.com.

Thank you again for your time and interest.

A handwritten signature in blue ink, appearing to read "Dan Tocher", is positioned above the typed name.
